REVISED DELIVERY DATE FOR THE DRAFT PHASE I NON-INTRUSIVE TECHNICAL MEMORANDUM No 1 OPERABLE UNIT, (OU) 10 OTHER OUTSIDE CLOSURES - GAA-007-94

Action None required

This memorandum is to inform you of a revision to the originally proposed delivery date for the Draft Phase I Non-Intrusive Technical Memorandum No 1 for OU 10 Enclosed, please find a revised schedule for delivery of Technical Memorandum No 1 The anticipated delivery date for the Draft and Final Technical Memorandum No 1 for OU 10 is January 16, 1995, and March 23, 1995, respectively These dates are approximately 5 weeks beyond the originally anticipated delivery date of December 6, 1994, for the Draft document

The decision to push the delivery date forward for these documents was made due to extensive comments on the Preliminary Draft Technical Memorandum No 1, inconsistencies with the figures and maps in the document and delays in receipt of validated analytical data With the additional preparation time, EG&G Rocky Flats, Inc. anticipates that a superior quality document will be produced, which should have a positive effect on the on-going negotiations with the regulators regarding the reconfiguration of the Industrial Area OUs

If you should have any questions regarding these revised delivery dates, please contact me at extension 8504, or Bruce Peterman at extension 8659
